

Meeting Overview

This regional meeting is the first in a series of four research-to-practice meetings that will take place in both Southern and Northern California in 2004.

Purpose and Objectives

The one-day meeting allows for treatment providers in the substance abuse and mental health fields the opportunity to receive high quality, science-based, skill-building trainings.

As a result of the meeting, participants will be able to:

- Identify immediate and long-term physical and psychological effects of methamphetamine use;
- Understand the impact of methamphetamine use on the community (e.g., environmental exposure in children and adults, criminality, and clandestine production); and
- Describe effective, empirically based treatment approaches.
