REGIONAL MEETING II: NORTHERN
CALIFORNIA**

June 11, 2004

9 a.m. - 5 p.m. (Registration starts at 8:30 a.m.)

Purpose and Objectives

This one-day meeting provides treatment providers in the substance abuse and mental health fields with the opportunity to receive high quality, science-based, skill building trainings.

As a result of the meeting, participants will be able to:

- identify immediate and long-term physical and psychological effects of methamphetamine use;
- understand the impact of methamphetamine use on the community (e.g., environmental exposure in children and adults, criminality, and clandestine production); and
- describe effective, empirically based treatment approaches.

Topics include:

Methamphetamine and the Brain
Methamphetamine and Psychosis/Psychiatric Comorbidity
Health Consequences
Methamphetamine Use Among Special Populations
Methamphetamine Labs/Production
Drug-Endangered Children
Methamphetamine and Adolescents
Methamphetamine Behavioral Treatments
Methamphetamine Treatment Outcomes

This regional meeting, being co-presented with the Haight Ashbury Free Clinics 37th Anniversary Conference is the second in a series of research-to-practice meetings that will take place in both Southern and Northern California in 2004. Further information will be available at www.psattc.org.
